

I am very much opposed to allowing the FCC rules and regulations changed to allow media monopolies to exist -even to the point of controlling TV, radio and newspapers - At present, the media presented is not true - the corporate ownership decides what is to be told to the public - true or not - It sells violence and makes it seem like a video-game. If any changes are to be made, it should be for stricter rules and for the truth to be known. You are, at present, doing us all an injustice as American citizens. Thank you.
